LOUISVILLE, JUNE 21.

Democratic State Convention Called By the Executive Committee.

County Conventions Ordered For
Saturday, June 17, at the
Court Houses.

The Democratic State Committees met in Lexington at noon Wednesday and in a brief joint session of the State and Central Committees, Ollie M. James, of Crittenden, a Stone man, was elected to succeed Senator Goebel as member from the State at large. The election was by acclamation.

The joint session then adjourned for dinner and at 2:30 p. m. the Executive Committee met with all of the members present in person or by proxy except W. A. Young, of the Ninth district.

There were no important differences of opinion and after a short interchange of views a call was agreed upon as published below. So far as could be learned the action was generally satisfactory to the candidates. There was some talk of precinct meetings, but as this plan has never been followed in electing delegates to conventions to nominate State tickets, the usual simpler method of county mass conventions was adopted without much opposition. The chair then appointed Messrs. Trimble, Meacham and Dishman to prepare the call and a recess was taken for thirty minutes. The sub-committee reported the following call, which was adopted by a unanimous vote:

The Official Call.

At a meeting held by the Democratic State Executive Committee in the city of Lexington on March 8, 1899, it was ordered that a State Convention be held in the city of Louisville on Wednesday, June 21, 1899, for the purpose of nominating Democratic candidates for State offices, to be voted for on November 7, 1899. Said convention shall be called to order at 11 o'clock a. m.

Delegates to said State Convention shall be chosen at county mass conventions, to be held at the various county courthouses in counties having but one legislative district, of which due notice shall be given by the various county chairmen. In counties having more than one legislative district there shall be a convention for each legislative district, to be held at some convenient point, to be indicated by the chairman of the Legislative District Committee, who shall advertise in the local papers the location for said convention at least ten days prior to the date fixed by this committee. Said county and legislative district conventions shall be held at 3 o'clock p. m. standard time, on June 17, 1899. Said conventions shall be called to order by the chairmen of the respective county or legislative district committees.

The basis of representation of each county to the said State Convention shall be one delegate for each 200 votes, and fraction consisting of 100 or more votes cast for the head of the Democratic electoral ticket at the Presidential election in 1896; provided that each county shall have at least one delegate vote.

All known Democrats and others who supported W. J. Bryan for President and those who pledge themselves to support the nominees of said convention, shall be entitled to participate in the county and legislative district conventions.

P. P. JOHNSON, Chairman.
OWEN COCHRAN, Secretary.

Resolution As To Convention.

The following resolution was adopted by the Executive Committee in reference to arrangements for the convention:

"That Mr. John W. Vreeland, the resident member of the Executive Committee from Louisville, be des-

all the details and make preparations for the holding of the State convention. It being understood that a guarantee fund has been subscribed, and will be collected by him to defray the expenses of the convention without cost to this committee."

The Committee then adjourned.

BERRY-MASON.

A Washington Young Man Elopel
With a South Christian Belle.

Mr. Claude Nathaniel Berry, of Washington, D. C., a young railroad man, connected with the Southern road, and Miss Sarah Mason, daughter of Mr. M. A. Mason, of The Square, eloped from this city to Clarksville Wednesday evening and were married that night upon their arrival there. They returned here yesterday morning.

Mr. Berry is a young son of a prominent railroad man. He arrived here Monday and the outcome of his visit was the elopement as above stated.

The bride is the accomplished and vivacious daughter of one of Christian county's largest landowners and most prominent citizens. She is still in her teens, but during the few seasons she has been in society has been a reigning belle, not only in this county, but in other cities where she has visited.

The young couple were met at the train yesterday morning by a large delegation of their friends and the fair bride as she alighted was pelted with a shower of rice.

Mr. and Mrs. Berry will probably remain in the city a day or two until parental forgiveness can be obtained. It is not thought it will be difficult to convince the parents of the bride that the young people knew their own hearts best.

HARRIS-CHILDS.

Kentucky and Tennessee Young
People Joined in Wedlock.

Mr. Thomas Harris, son of Dr. J. R. Harris, of this city, and Miss Ora Childs, of St. Bethlehem Tenn., were married Wednesday afternoon at the home of the bride. Rev. L. W. Smith, of Franklin, performed the ceremony.

The groom has for some time been connected with a Guthrie dry goods house in the capacity of sales-man, and is a very popular young business man, while his bride is a pretty and accomplished lady, with a host of friends. The couple arrived in this city last night on a visit to the groom's parents.

Mr. and Mrs. Harris will make their future home near St. Bethlehem, where Mr. Harris will engage in farming.

LIGHTNING'S CAPER.

Tobacco Barn Struck, But the
Flames Quenched By Rain.

During the rain storm of last Friday night lightning struck the tobacco barn of Messrs. Long & Brasher, near Casky. Several planks were knocked from the roof of the building and the comb was set on fire, but the flames were soon extinguished by the heavy down-pour of rain. The barn was filled with tobacco and the owners had a narrow escape from heavy loss.

WHEAT DAMAGED.

In Counties Where There Was a
Light Snowfall.

Commissioner of Agriculture Moore has received reports from several sections on the result of the freeze on the wheat crop. He says that in the eastern section of the state the wheat was protected by six inches of snow, and was not materially injured. In other sections the snowfall was light and with the water in the ground the crop has been considerably damaged.

Colored Country Couple.

Jake Wallace and Mariah Narsinger, a colored couple from the country, were married by Judge Cansler in the County Clerk's office

DEMOCRATIC HOSTS

Are in Town To-day to Attend
the Railroad Convention.

Will Be Called to Order at 2 p. m.
In the Circuit Court
Room.

The Democratic District Convention to nominate a Railroad Commissioner in this the First District, will meet at 2 p. m., to-day, at the Court House. The convention will be called to order by Hon. J. D. Mocquot, of Paducah, chairman of the district committee.

The district embraces 13 counties of the First district, 8 of the Second, 10 of the Third, 7 of the Fourth and Metcalfe county in the Eleventh district. The 39 counties have 420 votes, distributed as follows, using the Bryan vote as a basis of representation:

The nomination of Judge J. F. Dempsey, of Hopkins county, is a foregone conclusion. He has an instructed majority of the delegate votes and will probably be nominated without the formality of a roll call. Mr. Harry Tandy, of McCracken, and Mr. Webb C. Bell, of Christian, may be given some complimentary votes if there is a call of counties, but neither is a candidate in the sense of making an effort to secure the nomination.

With the nomination of the candidate settled in advance, the convention will partake more of the nature of a Democratic love feast, with a general round-up of the candidates for the state offices, nearly all of whom will be on hand.

In order to give these gentlemen an opportunity to meet and mingle with the dear people and the Kentucky people are the best on earth—there will be no effort to railroad matters through the convention. The convention will organize after the arrival of the 1:50 p. m. train and probably appoint committees to report at a night session, and give the afternoon up to the candidates to address the convention.

It is not expected that anything will be proposed in the platform to create discord in the party. An endorsement of the Chicago platform and the good work done by the last legislature is about all that will likely be touched upon. Resolutions of this conservative character would of course be satisfactory

with no opposition from the friends of any candidate.

The candidates for State offices will be on hand. Among those now here or due to arrive on the morning trains are the following:

For Governor—P. Wat Hardin, William Goebel and W. J. Stone.
For Lieutenant-Governor—W. P. Thorne, J. E. Kelly and M. D. Brown.

For Auditor—Gus Coulter and Jno. P. Chenault.

Attorney-General—W. B. Fleming, Jas. Andrew Scott and John Shropshire Smith.

Secretary of State—Green R. Keller, J. Breck Hill.

Treasurer—R. C. Ford, Gus Richardson, Jess T. Gosnell, S. W. Hager.

Supt. of Public Instruction—H. V. McChesney, M. A. Cassidy.
Commissioner of Agriculture—Dr. Frazee.

The delegates began to arrive on the afternoon trains yesterday afternoon in large numbers. The L. C. train brought in about 30 and the L. & N. train from Henderson brought a big crowd from the river counties.

At night the First and Third district delegates and prominent visitors from Louisville and other points came in and the rest of the delegates will arrive on to-day's trains. Capt. Stone has head-quarters on the first floor of Hotel Latham and Senator Goebel is in room 210 on the parlor floor. Mr. Coulter is at the Phoenix and his opponent, Mr. Chenault, at the Latham. Most of the other candidates are at the latter hotel.

The organization of the convention had not been given much consideration last night, as the great body of the delegates did not arrive until late in the night.

It is probable that by general consent a Stone man will be agreed upon for temporary chairman and that the committee will consist of one member from each of four districts and two or three members from the district at large on each committee with a fair representation to each of the gubernatorial candidates.

CAN BE RAISED.

Thinks Capt. Ryman, Owner of
the Boat Buttorff.

Capt. Thos. Ryman, owner of the Buttorff, sunk at Clarksville, has made a minute examination of the vessel and thinks that she can be raised and that it will probably not cost more than \$1,500 to accomplish the work. No attempt will be made to float the vessel until the water recedes, however. There is talk of lawsuits growing out of the disaster. Several thousand dollars' worth of goods were lost and the owners may try to hold the owner of the steamboat responsible on the plea that the accident could have been avoided.

CIRCUIT COURT.

Commonwealth Cases to Be Called
To-day The Wadlington Case.

Civil matters have occupied the attention of the court this week and no cases of great importance have been disposed of.

The case of Joseph McRoy, charged with solicitation, was continued to the June term.

The cases of Roy Bowles, indicted for robbery, Charles Thomas, murder, and Griffin Ross, aiding prisoner to escape, are set for trial to-day.

The Wadlington murder case is set for next Monday.

PIERSON-SMYTHE.

Young Lady Well Known Here
Weds in Nashville.

Miss Adelia Smythe, sister of Mrs. J. B. Galbreath, of this city, and Mr. Walter B. Pierson, of Pierson, Tenn., were married Wednesday evening at 8 o'clock at the residence of the bride's parents, Mr. and Mrs. J. C. Smythe, in Nashville. The ceremony was performed by Rev. Shumock, of Mississippi. Mrs. Galbreath attended the wedding.

FOR KENTUCKY.

River and Harbor Bill Gives a Full Recognition.

Washington, D. C., March 7.—There has been a very full recognition of Kentucky in the last two river and harbor bills. Three years ago the Kentucky river, the most important river in the State, extending from the Cumberland mountains to the Ohio river, was placed under the contract system, the United States government thereby pledging itself to the canalizing of the river to the three forks at Beattyville. This was the first continuous contract ever given to the State. In the same bill Congress placed under the contract system the falls of the Ohio River at Louisville, on the sum of \$500,000, which will be furnished during the current year. In the same bill the Rough River had an appropriation, which was sufficient to complete the only lock and dam on the river. A new lock and dam were authorized in the same bill of 1895, beside several other less important matters with surveys, contemplating future improvements.

The present river and harbor bill gives Kentucky a very full recognition again. A half million dollars is appropriated to the construction of the locks and dams between the one completed at Louisa, under the last bill, and the mouth of the Sandy; \$85,000 for the completion of the lock and dam on Green river, and survey for the said stream from Mammoth Cave to Greenburg.

Andrews Opera Company.

Those of our public who really appreciate the classical in music, in the way of Grand Opera, will welcome the fact Manager Ennis is using his best efforts to secure the celebrated ANDREWS OPERA COMPANY for two nights in this city. Whether he succeeds or not depends upon the amount of a subscription sale he is enabled to assure, the requisite being 200 books containing 4 tickets each at \$3.00 per book, which number will guarantee the company's appearance here in choice of operas to be selected from the following: "MOTOW's tundra and charming opera "MARTHA," Mascagni's famous prize opera "CAVALERIA RUSTICA," and the beautiful French opera-comique, "GIROFLE-GIROFLA." The reason of this subscription system is that it permits the price of seats being placed within the reach of all who specially enjoy operatic entertainments, viz: \$1.00 each, or 75 cents each, where the book is secured, a saving by the actor of 25 percent to the purchaser.

The company is one of the most prominent now before the public presenting Grand and Comic Opera in English. It aggregates 40 people and the cast includes some of the very best lyric talent known to the operatic stage. The fact of their making a prolonged run in Philadelphia last spring and summer to phenomenal business is a surety of their exceptional merit. They are lavishly equipped in the way of accessories and handsome costumes, which, together with their capable ensemble adds much to the employment of their productions.

Manager Ennis respectfully solicits the ardent support of our music lovers in this matter, and will consider it a favor if those who wish to assist him will send their names and the number of books they will subscribe for to Hopper Bros.; the regular reserve seat sale subscribers will have access to the chart one day in advance of the regular sale.

Reading Law.

It is not generally known that Miss Christine Bradley is reading law under the direction of her father the Governor, says the Danville Advocate. Miss Bradley does not hope to become a regular practitioner, but is qualifying herself more especially to become of assistance to her father in his office work.

Rev. E. Edwards, pastor of the English Baptist Church at Minersville, Pa., when suffering with rheumatism, was advised to try Chamberlain's Pain Balm. He says: "A few applications of this liniment proved of great service to me. I subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by R. C. Handwick.

LUCKY CAPTAIN.

Tennessee Still Drawing Pay As Officer of Federal Army.

Chattanooga, Tenn., March 7.—J. C. Klomere, of this city, received notice from Washington that his claim for \$62,000 for services in the United States Army had been allowed. Captain Klomere, who is now eighty-two years of age, was a Colonel of a Union regiment during the Civil war. He had enemies among the officers and was reduced to the rank of Captain. The records fail to show where he was ever mustered out, and according to his evidence and proof, he is still a Captain in the United States Army and drawing a Captain's pay. He applied to Congress for a Captain's pay, \$130 a month from July, 1861, until the present time. This, together with interest accumulating runs the amount up to \$62,000. The matter had hung fire for many years and various measures have been adopted by the gentleman to secure relief from the government.

BETTER THAN THE OREGON

Will be the Three New Battleships to be Constructed.

The plans for the three first-class battleships authorized by the Naval Appropriation Bill just passed at Washington, are being worked out. The general features of the ships have been defined, subject to the approval of the Secretary. The battleships will be 1,000 tons larger than the Maine and Missouri class, and of a total displacement of 13,500 tons, making them by far the largest ships in the American navy and about equal in dimensions to the best type of battleships now being constructed abroad under the new practice. Though larger than the Maine, the ships will be laid on almost the same lines, being only a little greater in every dimension. They will carry each four 12-inch guns in turrets. This caliber is an inch less than the guns carried by the Oregon, but by improved design they will be almost equal in penetrative power. The eight-inch guns of the Oregon type, although they did very effective work at Santiago and Manila, have been abandoned.

CLOSED THE CONTRACT

And Convicts Will Hereafter Manufacture Furniture at Eddyville.

Frankfort, Ky., March 7.—Hereafter the only idle convicts in the two State penitentiaries will be those prevented from working by illness. The Prison Commissioners to-night closed a contract with the Albion Company of Louisville for the labor of all able-bodied men now idle in both prisons, or that may be received, to be employed in the manufacture of furniture. The workshops of the new contractors are to be located in the branch prison at Eddyville. The contractors are to supply the machinery for doing the work, and the State is to receive forty cents per day for the labor of each convict employed. The contractors will begin work with about fifty or seventy-five men, but will shortly be able to increase the number to about 150.

TO BE WITHDRAWN.

Will be brought Back From Cuba Without Delay.

Washington, March 7.—President McKinley has decided not to avail himself of the authority granted by the compromising army bill to organize a volunteer army of 35,000 volunteers.

He thinks it will not be necessary, after the present volunteer forces have been mustered out, to have more than 65,000 men allowed for the regular army until July 1, 1901. It is also his purpose to expedite the withdrawal of volunteers from Cuba and Philippines as rapidly as possible, and mustered them out of the service. All the volunteers are to be brought home from Cuba without delay, and those in the Philippines will be brought home as soon as enough regiments can be sent out to take their places.

If Speaker Reed said to a Representative, "Look, you look so much like Alger you should be white-washed," it shows a streak of disloyalty in the Speaker that will shock many Administration patriots and arouse the cuckoos.

JUDGE JONATHAN ROSS.

Chief Justice of Vermont's Supreme Court Becomes a United States Senator.

B. F. Field, because of the illness of his wife, declined the appointment as United States senator offered by Gov. Smith, and Jonathan Ross, chief justice of the supreme court of Vermont, was appointed in his place. The chief justice resigned his judicial office and accepted the senatorship. The legislature will elect a senator to complete the late Mr. Morrill's term in October, 1900, and

JUDGE JONATHAN ROSS.
(Just Appointed United States Senator from Vermont.)

it is believed Mr. Ross will not be a candidate, as it is supposed he merely desires to round out a long public career in the senate. The appointment was unsought.

Mr. Ross was born in Waterford, Vt., April 30, 1826, and was educated in the public schools of Waterford, fitted for college at St. Johnsbury academy and was graduated from Dartmouth college in 1851. He worked on the farm through all his boyhood days and taught winters in the country schools while attending college. After graduating from Dartmouth he taught in Craftsbury and was then principal of Chelsea academy. He studied law in Chelsea and was admitted to the bar in 1855.

Mr. Ross then settled in St. Johnsbury, practiced law, was treasurer of a bank, served several terms in the legislature, and in 1870 was elevated to the bench. In 1890 he became chief justice. The new senator married Eliza Ann Carpenter in 1852. They had eight children. Mrs. Ross died some years ago, and he then married Miss Helen Daggett. He is a Congregationalist.

WILLIAM L. CHAMBERS.

Chief Justice of the Samoan Islands Appointed at the Request of President Cleveland.

Chief Justice William L. Chambers, whose decision against the eligibility of Mataafa, the lately elected king of the Samoan islands, was the cause of the grave troubles now agitating those islands, is a Georgian and a some time partner of former Secretary of the Navy Herbert. He was appointed by the governments of the United States, Germany and Great Britain in the early part of Mr. Cleveland's second administration and at the suggestion of the American president. He was reappointed in 1897, as the post was one in which experience in the affairs of Samoa and the temper of the people was deemed necessary.

Personally Justice Chambers is an admirable citizen. He was born in Columbus, Ga., and early went to Alabama, where he engaged in law practice.

WILLIAM L. CHAMBERS.
(Chief Justice of the United States at Apia, Samoan Islands.)

He was originally sent to Samoa to see what he could do in the way of straightening out the jumble of Samoan politics, and so well did he succeed that the president made him a Samoan commissioner. On his return to the United States his work was highly praised, and Germany and Great Britain at once acquiesced in his appointment. When a vacancy occurred on the Samoan bench the talented southerner was at once consulted by the president with a view to his return to the islands as the supreme judge. The appointment was in no sense a political affair. Mr. Chambers consented, and he has since ruled as the judicial representative of the three great powers.

Prince George of Greece, the new high commissioner of the powers in Crete, is a big, handsome fellow, powerfully built, standing 6 feet 4 1/2 inches in his stockings, and weighing over 19 stone. Despite his weight, he is said to be very active, and a fine boxer and wrestler. The prince, who was born in 1869, is the favorite nephew of the princess of Wales, and is on terms of the most affectionate friendship with his cousins of the Danish court.

Bees are very busy. A bee's wings are said to beat the air at the rate of 150 strokes per second, and to propel the bee a distance of 30 miles an hour.

THE AMENDED CALL.

For the Convention to Nominate a Railroad Convention.

The official call for a convention to be held at Hopkinsville to nominate a Democratic candidate for railroad commissioner, issued by the Democratic committee of the First railroad district, is as follows:

Resolved, That a district convention shall be held in the First railroad district of Kentucky on Friday, March 10, 1899, for the purpose of nominating a Democratic candidate for railroad commissioner in said district. Said convention shall meet in the city of Hopkinsville at 2 o'clock p. m. Delegates to said convention shall be chosen at county mass conventions, to be held at the various county seats in the district at 2 o'clock p. m. on Saturday March 4, 1899.

That the basis of representation from each county to the district convention shall be one delegate for every 200 votes and each fraction over 100 votes cast for the head of the Democratic electoral ticket at the presidential election in 1896.

That all known democrats and others who will pledge themselves to support the nominee of said district convention shall be entitled to participate in the county conventions to select delegates.

GRAND RUSH.

To Be Made on the Filipino When Re-Enforcements Arrive.

Washington, March 7.—There is some reason to expect important news from Manila within the next fortnight. It has developed that General Otis has practically completed his plans for a grand onslaught on the insurgents, which is expected to deprive them of offensive power at least. It is probable that he will form a large part of his force into columns as soon as reinforcements are at all hand, and will push those in parallel lines straight through the jungles, clearing out the insurgents in every direction as the troops go forward. The American troops are getting restless and nervous under the petty but annoying sharpshooting of the Filipinos, and are so anxious to put a stop to this that General Otis has yielded to their desire.

Beautiful Flowers

Separate Beautiful Flowers and use the letters to form as many words as you can, using the letters backwards or forwards, but don't use any letter in the same word more times than it appears in "Beautiful Flowers." It is said forty small English words can be spelled correctly from these sixteen letters. For example—ten, feet, eat. The Hamill Seed Company will pay Two Hundred Dollars in cash to the person sending them forty words formed as above. If you are good at word making and can form forty words write your name and address plainly on your list and inclose the same with fifteen ten-cent stamps for ten packets of Beautiful Flower Seeds of ten popular and different varieties.

Our object in giving this two Hundred Dollars is to attract attention to and introduce our seeds in the U. S. This offer will be carefully and conscientiously carried out and it should not be classed with catch-penny affairs. We will spend a large amount of money to start our trade order; you will receive the greatest value in seeds ever offered. If two or more persons succeed in forming forty words the \$200 will be divided pro-rata. Many are special prizes of value will be awarded to persons sending twenty-five words or more who will assist in introducing our seeds and specialties. Satisfaction is absolutely guaranteed or your money promptly refunded for the asking. Send your list as early as possible. Address HAMILL Seed Co., 865 Warren, Ave., Chicago, Ill.

HARD CASH

On the Way to Manila For Payment of Troops.

The transport steamer Valencia has sailed from San Francisco for Manila, via Honolulu. She carried about 150 recruits for the infantry, artillery and hospital corps, and was laden with supplies of all kinds for the troops in Hawaii and the Philippines. The most important item of her cargo was \$1,500,000 in coin under the charge of Major Eugene Coffin, Paymaster U. S. A. This vast sum will be used for the payment of soldiers, and all but a fraction of it will be disbursed at Manila. The Valencia also carried to the orient Surgeon R. J. McDuffy and Second Lieutenant Munson, Minus, Burchfield, Buadill, Karr, Perron, Verick, Maury, Haras, Foster and Somers. These officers were recently graduated from West Point ahead of their regular time, and have been assigned to duty with various companies in the Philippines.

A THOUSAND MEN

Who Died at Santiago May Be Buried at Washington.

Washington, March 8.—The transport Roumania has reached Santiago from San Juan with the bodies of 130 soldiers who died in Puerto Rico. The records of the War Department show that about 980 are buried in the neighborhood of Santiago, and the work of uncovering them may take two or three weeks. Most of the Americans buried at Santiago are regulars. In most cases the relatives have accepted the offer to have their dead laid to rest with the army of patriots at Arlington, and it is probable that nearly 1,000 of the bodies will be interred in the national cemetery within sight of the White House. No arrangements have yet been made for ceremonies in connection with the burial, but it is probable all military honors will be paid the dead.

SEVERE FROST

Strikes Business at Dawson City — Reindeer Killed by Indians.

The first installment of reindeer belonging to the United States Relief Expedition arrived at Dawson City January 6 in charge of the Lapland herds. The last day's run was 60 miles. Large numbers of the reindeer are said to have been slaughtered by the Indians, who mistook them for wild game. The reindeer will be driven to Circle City. The business outlook for Dawson City during the year is most unpromising. Hundreds of people are migrating to more congenial climes, and the retail traders complain that they have more out-fits offered for sale than purchases sought. Even the saloons and gambling houses are reported to be making no profits. No new gold discoveries of importance are reported.

NEW CONSTITUTION

Opposed by Alabama Republicans — Negro Vote in Danger.

Birmingham, Ala., March 7.—The proposed Constitutional Convention for Alabama is being vigorously opposed by the Republicans of the State. The State Republican Executive Committee, at its last meeting, took no action, but after discussing the proposed convention, prepared a strong resolution against it. Before adopting it, however, it was decided to secure a full attendance of the committee, and the meeting was adjourned until April 1. The Republicans claim that the convention will disfranchise the negro and otherwise embarrass his rights. The convention will be held in August.

REBELS PLANNED ATTACK.

Americans Shell the Natives With Mounted Guns.

Manila, March 7.—2:50 p. m. While the rebels had concentrated their forces this morning with the evident purpose of attacking the waterworks, no direct attempt was made to capture the American position.

Detachments from Gen. Hale's and Gen. Wheaton's brigades cleared the country to-day.

11:25 a. m.—At daylight this morning the enemy were discovered trying to mount a gun across the river from San Pedro, and the Sixth Artillery promptly shelled the rebel battery. Temporarily stopping work, the enemy poured a fusillade of musketry across the river, but a gunboat moved up and cleared the banks of the stream with rapid fire guns.

All was quiet during the night. Postoffices have been established at Negros, Cebu and Iloilo, and the clerks left yesterday for their respective posts by the steamer Espana.

MOTHER SIXTY

And Has Twins—Nine Children Have the Same Birthday.

Last week a pair of twins were born to Mr. and Mrs. A. L. James, of Nardin, Oklahoma. Mrs. James is 60 years old. She now has 20 children. Nine were born on February 17. Seventeen have February for their birth month. There are three pairs of twins. The last twins were boys, and were named Dewey and Sampson.

Don't Overlook William Henry.

The Joneses are doing very well lately in official life. In the Senate of the United States we have Jas. K. of Arkansas and John P. Jones, of Nevada, who hold their seats until March 1903. In the present house of representatives, we have W. A. Jones, of Virginia, who succeeds himself in the next congress, and William C. Jones of the State of Washington, who is succeeded by another Jones, whose initials are W. L. The present Jones is a populist. The next Jones is a Republican.

Dan. W. Jones is governor of Arkansas. J. H. Jones is lieutenant-governor of Mississippi. A. W. Jones is lieutenant-governor of Ohio. F. L. Jones is superintendent of instruction in Indiana and W. D. Jones is attorney-general of Nevada. — Chicago Herald.

Heavy Loss on Logs.

Lexington, Ky., March 7.—An almost unprecedented loss follows the breaking of booms in Kentucky river. It is estimated that fully \$1,000,000 worth of logs have been left in this way at Jackson, Beattyville, Valley View and other points. The Lexington & Eastern railway has been a heavy loser. Above Clay City its tracks were submerged in some places to the depth of five feet, while in some places the tracks were washed away.

The Largest Cannon.

The largest cannon in the world was taken by the English when India was conquered. The cannon was cast about the year 1500, and was the work of a chief named Chuleby Koomy Khan, of Ahmednuggur. The inside of the big gun is fitted up with seats, and is a favorite place for English officers to go for a quiet noontime sleep.

Chamberlain's Cough Remedy.

This remedy is intended especially for colds, coughs, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonies have been received, giving accounts of its good work; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by R. C. HARDWICK.

When our own peach trees are nipped we get the idea that there won't be a peach on earth.

SEASON OF 1899.

To OUR FRIENDS: Another season of seed time is fast approaching, and the wise and prudent farmer will again use the old and favorably known JONES' BRANDS OF BONE AND ANIMAL MATTER FERTILIZERS, that have for many years done their full duty when applied to both Spring and Fall crops. The use of commercial Fertilizers is almost universal, and the experience of many years has proven conclusively that ANIMAL MATTER FERTILIZERS are the most complete plant food known, and the fact of putting ACID PHOSPHATE ROCK in a bag and branding it "DIS-SOLVED BONE" does not make it animal matter. Honest strictly pure Animal Matter Fertilizers cost more than rock goods because they are worth more, and we ask that you remember this fact. Our goods go out under our guarantee analysis, and this guarantee is good. We offer our goods on their merits, and refer with great satisfaction, to their most excellent reputation in all parts of Ohio, Indiana, and Kentucky, where they are extensively used. We respectfully urge you to give the celebrated Jones Fertilizing Co's goods a trial on both Spring and Fall crops, and we know satisfactory results and future orders will certainly follow.

CHAS. M. MEACHAM.

SUBSCRIPTION \$2 A YEAR IN ADVANCE.

Local reading notices 20 cents per line. Special local notices 10 cents per line. Rates for standing advertisements furnished on application.

OFFICE 212 SOUTH MAIN STREET.

—FRIDAY MAR 10, 1899.—

The cold weather of this week has destroyed the melon crops in some parts of Georgia.

A large part of the 1898 cotton crop in Arkansas is yet unpicker, and thousands of bales will rot in the fields, for want of pickers.

The War Department Court of Inquiry met in Chicago yesterday. The court will inspect the packing houses at Chicago, Omaha and Kansas City.

All the sick soldiers at Manila sailed for home yesterday. Returning officers and their wives will leave to-day and discharged soldiers to-morrow.

Kentucky and Tennessee will be entitled to three Second Lieutenants each in the proposed expansion of the army. There are already many applicants for the places.

A civil war veteran in Birmingham, N. Y., who was drawing a pension of \$20 a month for liver trouble, has lost his pension through allowing a popular liver pill firm to advertise that they had cured him.

The Illinois Central has ordered all grades reduced between Chicago and New Orleans to twenty-six feet to the mile. The work is already in progress. The same rule will apply to the Louisville and Memphis and Ohio Valley divisions.

The appointment of ex-Secretary Gray, of Delaware, to a United States Judgeship held back by the President in the hope that, by some hook or crook, he may be again elected Senator by the Delaware Legislature, which is now badly torn up.

A sensational meeting occurred at Lexington Wednesday between Col. Jack Chinn and Senator Chas. J. Brounson in which hot words passed and a tragedy narrowly averted and only prevented by the prompt interference of mutual friends. Col. Chinn, who was the aggressor, was put under a peace bond.

Capt. W. H. Sandusky, of Central City, through his attorney, has carried his \$20,000 damage suit against that city to the court of appeals. It will be remembered that this damage was claimed on account of the failure of the city to supply water for fire protection, but the case was thrown out on a demurrer.

In the future a widow cannot receive a pension unless she marries the man prior to or during the military or naval service of the veteran on whose service the pension is asked or claimed. Under this law a woman who marries a veteran after he has performed the service for which he may claim a pension cannot herself obtain a pension on his death. This will stop such injustice as that shown in the pension rolls, where there are 2,407 widows drawing pensions on account of the war of 1812, although there are only three survivors of that war now living.

The new census law will provide a tremendous number of appointments to be utilized in taking the population of the last decade. Before Congress adjourned the President nominated ex-Governor Merriam, of Minnesota, to be director of the work, and has appointed Fred H. Wines, of Illinois, to be assistant at a salary of \$4,000 a year. The Director of the census is authorized to appoint five statisticians at \$3,000 each; a chief clerk, \$2,500; a disbursing clerk, \$2,500; one geographer, \$2,500; five expert chiefs of division at \$2,000 each; two stenographers at \$2,000 each together with an unlimited number of clerks at \$1,200; copyists, messengers and skilled laborers. The higher grades of clerks are limited in number, as follows: One at \$1,800, 15 at \$1,600, 20 at \$1,400.

1 Hhd. lugs \$2 30.
Market firm at last week's quotations.

(Reported by J. H. Eggleston, of Cummings & Eggleston Co., (incorporated), buyer on order of dealer and handler of leaf tobacco.)

The offerings this week were the largest of the year, being 264 hhds. The quality was about the same as previous week and prices ruled a shade higher with bidding quite spirited as speculators are beginning to come in. Sellers report very satisfactory sales and as only 97 hhds. were rejected it certainly seems as though it were true.

The lugs offered were mostly green and dirty but sold very well at from \$2.25 to \$3.00. All leaf sold over \$5.00 and up to \$10.00. There were no fine tobaccos offered.

J. T. Wall & Co's

To our many friends we extend our thanks for the up to date season that we have had. Our trade so far this season has been greater than any previous season. This shows our goods were correct and our prices right. We got our goods in at the proper time and our prices sold them. So it does not require any humbug advertisement these days. The people have learned that these big advertisements don't always mean good value.

What we advertise
Is just as we say.

There is no humbug about it, nor the way we got it, nor the way we sell it. Below are a few things that we have shut our eyes to the cost and put on our Job Tables. We will sell at those prices as long as they last.

"Better Be Wise Than Rich."

Wise people are also rich when they know a perfect remedy for all annoying diseases of the blood, kidneys, liver and bowels. It is Hood's Sarsaparilla, which is perfect in its action. It so regulates the entire system as to bring vigorous health. It never disappoints.

Cottrre.—"For 42 years I had gottrre, or swellings on my neck, which was discouraging and troublesome. Rheumatism also annoyed me. Hood's Sarsaparilla cured me completely and the swelling has entirely disappeared. A lady in Michigan saw my previous testimonial and used Hood's and was entirely cured of the same trouble. She thanked me for recommending it." Mrs. A. J. SUTHERLAND, 406 Lovell Street, Kalamazoo, Mich.

Poor Health.—"I had poor health for years, pain in shoulders, back and hips, with constant headache, nervousness and no appetite. Used Hood's Sarsaparilla, gained strength and can now work hard all day; eat heartily and sleep well. I took it because it helped my husband." Mrs. ELIZABETH J. GIFFELS, Moose Lake, Minn.

Makes Weak Strong.—"I would give \$5 a bottle for Hood's Sarsaparilla. If I could not get it for less, it is the best spring medicine. It makes the weak strong." ALBERT A. JACOBSON, Douglassville, N. Y.

NEW FIRM.

A. Urbansky & Co., Will Open a Store Here in April.

Mr. M. Salinger, of Louisville, representing A. Urbansky & Co., was here Tuesday and perfected arrangements to open a dry goods store in this city early in next month, having leased the the Lipman store house, on South Main. They will put in a large stock and will open with every prospect of success. This firm is well known throughout Kentucky, already having in successful operation more than a dozen stores at various points over the State. The distributing house of the concern is located in Louisville, from which their numerous branch stores are supplied. Their storehouse in this city is well located for this line of the mercantile business and it is safe to predict that the new firm will speedily build up a handsome trade.

Mr. F. Lipman, who has been in business here for something over a year, will retire, on account of ill health.

COMBS-MASSIE.

Well Known Pembroke People Married Tuesday Evening.

Mr. C. E. Combs and Miss N. E. Massie, popular young people of the Pembroke neighborhood, were united in marriage at the home of the bride's parents Tuesday evening at 7 o'clock. Rev. J. G. Bow, of the Baptist church, performed the ceremony.

Danger Signals!

Do you take cold with every change in the weather? Does your throat feel raw? And do sharp pains dart through your chest?

Don't you know these are danger signals which point to pneumonia, bronchitis, or consumption itself?

If you are ailing and have lost flesh lately, they are certainly danger signals. The question for you to decide is, "Have I the vitality to throw off these diseases?"

Don't wait to try SCOTT'S EMULSION "as a last resort." There is no remedy equal to it for fortifying the system. Prevention is easy.

Scott's Emulsion

prevents consumption and hosts of other diseases which attack the weak and those with poor blood.

SCOTT'S EMULSION is the one standard remedy for inflamed throats and lungs, for colds, bronchitis and consumption. It is a food medicine of remarkable power. A food, because it nourishes the body; and a medicine, because it corrects diseased conditions.

See and get it on all druggists. SCOTT & BOWNE, Chemists, New York.

POLITICAL HISTORY.

Letter Written by Judge W. B. Fleming to Secretary Carlisle.

Showing That His Removal From Office For Partisan Reasons Made Him "The First Martyr."

As a matter of interest connected with Judge W. B. Fleming's race for Attorney General, the letter below will revive an interesting bit of political history. Judge Fleming, it will be remembered, was removed from office the day after the election in 1896 for alleged offensive partisanship in making speeches for Bryan.

He addressed a letter of protest to Secretary Carlisle, which was published in the daily press of Nov. 9, 1896. We re-print the letter to show to the Democracy of the State, the treatment accorded Judge Fleming for his adherence to his party. Judge Fleming was one of the first martyrs to the cause of free coinage.

The letter reads: "Sir—Our Government guarantees to all its citizens the privilege of free speech, so that every American has the natural right to express in a proper manner his political opinions. In accepting office, the citizen forgoes neither his civil nor his religious liberty. The civil service law was intended not to destroy these rights, but to protect them, so that the minor official should at least be secure in defending the creed and nominee of his party, as would be a Cabinet officer in exercising the same inalienable rights."

"No objection on your part to my activity in the campaign which has just closed was ever made known to me pending the campaign. On the contrary, I was informed that you held to the view that you could not consistently remove any man from office for exercising the same rights which you yourself were exercising. My removal from office, the first intimation of which was obtained from the newspapers while on the train on my return to Washington from my home, therefore, was a complete surprise to me. No one knows better than yourself the long friendship I had manifested for you, the interest I had taken and the sacrifices of time and money made by me in promoting your ambitions. In view of all the facts, it seems to me that I was at least entitled to some warning and notice before being kicked out of office."

"Had I known or suspected that I could not hold office under this administration, and at the same time exercise the rights of an American freeman, I would have promptly tendered my resignation at the opening of this campaign. "Inasmuch as other appointees of the present Administration, including many in your department, have been permitted to take an active part against Mr. Bryan in the campaign, not only on the stump, but in the work of organization, without rebuke or removal, it is evident that this cause of my offending lies not in my actions, but in my convictions. It follows, therefore, that you have used your great office to suppress freedom of thought and action and to punish those who dare to differ from you—a thing insupportable in free government—by terrorizing over the weak and humble. For such abuse of public office, which is a public trust, you can not but be held accountable at the bar of public opinion, as well as by the verdict of history."

"In conclusion, I can only say that, humble as I am, I would rather be a discharged employee of the Treasury Department, discharged for doing my duty as I see it for my people, than to be Secretary of the Treasury, with a record of self-stultification, such as you have made for yourself, staining me in the face. "This much of a protest I deem it proper to make against your treacherous and tyrannical action. Very truly yours, W. B. FLEMING.

A Pronounced Success.

The pronounced success the Andrews Opera company made during its run in Philadelphia last season, is sufficient assurance of their capabilities, and the cast is individually the same as it was then, including Frank W. Walters, leading tenor, Miss Myrtle French, prima donna soprano, Misses Catherine Lee and Pearl Nighting contraltos, Geo. Andrews W. C. Howard, baritone, Ed Andrews, comedian, and Tom Johnson basso. These artists certainly form an array of talent fully adequate to the very highest class of operatic work.

GANT & SLAYDEN.

This plant covers 62 acres of ground, and employs 6,100 hands. 21,326 carloads of material and machines entered and left the factory during 1898. No other harvester works in existence can approach these figures in output, sales, shipments, or size of plant.

Above is the birth-place of the Deering binder. At maturity it issues thence to conquer the world, for its field of operations are not confined to the United States, but stretches out to England, France, Scotland, Germany, Hungary, South Africa, Russia and Australia. The great Corliss Engine used in the Machinery Hall at the World's Fair is used in the twine department. This factory turns out 31 miles of twine and one complete machine per minute. Its size, capacity and number of employees surpass any other two Harvester works in the world.

The Deering is now away in the lead owing to its progressive policy. It used ball bearings four years before the others followed suit, and in many other features it is equally as far ahead. THEY ARE EASY TO SELL because they are easy to run and easy to keep running. This is our twelfth year as Deering agents. You can always find repairs for it right here. Buy the best and you will never regret it.

HYPONOTISM EXTRAORDINARY.

Some New Facts by a Parisian Young Woman.

A very puzzling young person is at present exercising the curiosity of Parisians. She is known to fame as Mlle. Lina. Till recently she was an artist's model. Then Col. De Rochas and M. Jules Bois discovered her strange capabilities, and Mlle. Lina has since passed much of her time in hypnotic trances, a state in which she performs wonders that must be seen to be believed. Her sponsors, it will be well to remark, are men of high standing and acknowledged reputation, and not professional organizers of rare shows. Col. De Rochas is at the head of the Ecole Polytechnique, a government institution, and one of the foremost educational establishments in France. M. Jules Bois is among the most talented of the young school of French hypnotism and kindred subjects.

Presented under these auspices, Mlle. Lina cannot be dismissed as a vulgar impostor. Her pretensions at any rate deserve to be looked into. They are wonderful enough. Mlle. Lina, for instance, is the best subject Col. De Rochas has so far come across for demonstrating the phenomenon he terms the "exteriorization of sensibility." When in a trance her sensibility leaves her body and can be localized by the operator in any object he desires within a few feet of her. If this object be prickled or otherwise manipulated, Mlle. Lina experiences exactly the same sensation as if the act had been performed on her own person, whereas her body, while she is in this state, is wholly insensible. It may be objected that this sort of thing might be feigned. Colonel De Rochas, however, vouches for several cases in which deception would seem to be out of the question. On one occasion, for example, the sensibility of Mlle. Lina had been transferred to a photographic plate. Various experiments were made, and then the subject was brought back, as it was thought, to her normal condition. After the lapse of a considerable time Mlle. Lina was suddenly seized with shivering, and then with violent sickness. It was found that simultaneously with the appearance of these symptoms M. Duer, to whom the photographic plate belonged, had immersed it, unknown to the rest of the company, and in a dark room in a distant corner of the house, in a chemical bath, and was developing it in the usual way—a process which had afflicted Mlle. Lina with a sort of seasickness.

In another curious set of experiments music played an important part. It was found that when a piano was played within hearing of Mlle. Lina while she was under the hypnotic influence she adopted attitudes suitable to the music played. In every case the attitudes were so strikingly beautiful and apposite as to excite the admiration of the operatic artists and painters who had been invited to witness the experiments. Here, again, the suspicion might arise of deception, though there is no reason to believe that Mlle. Lina has ever had any musical or dramatic training. But direct proof has been forthcoming of the genuineness of the phenomena. A Polish musical composer who witnessed some of the experiments asked to be allowed to apply a test that would satisfy him that Mlle. Lina was not merely going through a performance rehearsed beforehand. What he did was to play a Polish country dance that has fallen even in Poland into almost entire oblivion. To his astonishment Mlle. Lina went through the dance exactly as it ought to be performed, though it was utterly impossible that she could have learned the proper gestures and measure.

Such are a few of the facts; as to their explanation, that I must leave to Col. De Rochas or M. Jules Bois.

Marching Records.

A German service contemporary gives some interesting details on the marching performances of the troops engaged in various celebrated campaigns. Thus the highest average of distance marched by troops during the campaign of 1866 was 134 miles, while during the Franco-German war the highest averages were for the Germans (during the march to Sedan), 141 miles, and for the French troops, 140 miles. In the case of the mounted troops the record is held by Mura's cavalry, which marched 497 miles in 24 days during the operations of 1866.

DOINGS OF GOTHAMITES

Owen Langdon Tells of What the Dudes and Millionaires of New York Are Talking

So W. K. Vanderbilt, Jr., is to have a big country establishment on Long Island. He is to join the famous "Hempstead colony."

Meanwhile, for the coming summer, a villa has been rented for him in Newport. The slender boy of 20 is a sophomore in college. His engagement to Miss Fair means that he will not complete his course. It would be odd for a millionaire husband to leave his wife while he sits over to the classroom to do sums in conic sections.

The estate purchased for the young man includes the Harbor hill, at Roslyn, a shrine for lovers of Bryant's verse. The hill, the highest on the island, was his favorite outlook, and many of his poems were composed amid its fine forest of chestnut trees. His family is still represented in Roslyn by the Parkes Godwins, and a fine, new clock tower commemorates him on the village square.

Very different from the old intellectual regime of Bryant will be the new order. A house of 100 barns will crown the hill. The public will be kept off by a fence, "horse-high, pig-tight and bull-strong." (Fences are a family weakness of the Vanderbilts. The fence about this young man's mother's "Marble House" in Newport is famous.) Other places of great size will be built in the neighborhood. The sturdy native population will be turned into a lot of flunkies looking for tips.

The Hempstead colony is pretty big; the town covers 20 miles from Roslyn on the sound to Wave Crest and Lawrence on the sea. Mr. Whitney's great place, with its private race track, and Col. Roosevelt's country house are a little to the east of the heart of the colony. The broad acres of the Belmonts are in the middle of the town. Here, too, is the house to which Clarence Mackay, son of a plain miner who made his pile, brought his bride, a scion of the Duers, an old and proud New York family.

Miss Duer was almost the only young member of high New York society who has shown any literary gift. Her poems are excellent. The Duers are by no means wealthy. A newspaper man now rents and occupies their little New York house. If one has birth and brains, New York society does not at all ways insist upon the possession of vast wealth as a condition of admission to the inner rings.

The Hags for Country Houses.

It seems the correct thing nowadays to provide young couples with farmhouses where they may have their own boys and, if they like, teach gentle milk calves to drink milk out of a bucket.

There is the estate of several hundred acres which W. C. Whitney bought for his son, the husband of Gertrude Vanderbilt. Giving the farm to his son, on October 1, on the mountain in Lenox, Mass. There are in it, recently many costly country places of 400 or 500 acres and a few that pass 1,000, like the Whitney estate and that of Anson Phelps Stokes.

You can't buy high lying land within eight miles of Lenox village for less than \$10,000 an acre. The same is true in Hempstead. Land which a few years ago could have bought for \$20 an acre has gone up so that it gives a man a crisis in the neck to look at it. Miles matter nothing to these play farmers, with their stables full of fast horses. The Hempstead colony is fond of horses. It has several race tracks at hand and the hawks may hunt for riches plenty of riding after the bounds.

Nearly all the Hempstead cottages are low sand rambling, and try to look as much like farmhouses as possible. The same size will prevail. The colony is this year's fashion—no knowing what will be next. Take Washington's Mount Vernon from the Boston banks and set it down in Hempstead; it would look like the neighborly respect that it would seem terribly small.

The Show at the Waldorf.

Popular country life as you may there are plenty of people who sick to the city and, of an afternoon, make the famous corridor of the Waldorf. Astoria the most brilliant of nights.

So well is this understood that many there are, not at all well to do, who save up their shopping-lunch money for a week, so that they may run up in couples to the Waldorf and see the gowns of their more fortunate sisters. These inquisitive women sit in the corridor in such numbers that it is almost impossible to make one's way through the crush. It is not an intrusion; they are guests of the hotel.

—L. A. W. Bulletin.

they go into the restaurant and, by a careful scanning of the bill of fare for the cheapest items, lunch comfortably for about 75 cents each.

The last time I was in the place—and I go as seldom as possible—I saw a man dragged along the corridor by his wife; one of those poor fellows who are occasionally made to dine there by women who want to see the pretty gowns and the famous people. He looked bored. All at once his face brightened up and he seized the hand of a good-looking man in evening dress, who stood near by, and shook it heartily, somewhat to the other's surprise.

The man's wife jerked him angrily away. "Don't you know any better than to shake hands with a servant?" she shouted.

"Don't care if he is a servant," the man replied, with a momentary show of independence; "I'm too darned glad to see anyone here I've ever seen before."

Two English gentlemen with whom I had business conferred in me that they didn't like the only hotel in the world that is assessed for taxation at \$5,500. When I asked them why, they said: "It's simply impossible to get any candles to go to bed by, don't you know? Fancy!"

From which instances it would appear that not all people are as fond of luxury and electric lights as the shopping women.

The Tail Ghost of a Scandal.

As I sat watching the brilliant throng, listening to the whispering of silken garments along the carpets, and noting the men and women whose names are household words for their wealth, on their beauty—or for the scandals that have put their pictures into the papers—there came a lonely figure.

Looking at the great height of the man, one would think of him as a Hercules; a glance at the face, with its weak, irresolute outlines not wholly concealed by a white beard, would correct the impression.

The man is Sir Tatton Sykes, heir to \$5,000 Yorkshire acres which pay him ten dollars a year per acre, and hero of the strange legal scandal in England in recent years. It was Sir Tatton's wife, many years younger than he himself, whom he accused of forgery, and actually brought to trial in 1897. Lady Sykes had been speculating in stocks—among other fancies some unimpaired share to her by D. O. Mills, a New York, her brother-in-law, figured—but the judge thought the evidence sufficient that Sir Tatton had signed his wife's checks, as she claimed. Never since, another suit was brought last year.

The fact is, Sir Tatton seems eccentric; he was in his youth a great sportsman; now he is a gloomy old man, who speaks to no one and has religious ideas rather out of the ordinary. He does not seem to be getting much enjoyment out of his New York visit.

The Women's Hotel Scheme.

For years Mrs. Lyth's London and mother of Lillian Russell, and other women have been digging away at the scheme to establish a hotel exclusively for women in this city. As last they say that the money is raised and the building will soon be begun.

A. F. Stewart tried this experiment once and his hotel for women failed because it had too many rules. It is said that the new hotel will avoid this fault. It will not be meant for very poor women, but for those who can't pay from week to week for rooms, board being extra.

In other words, it is meant for professional women, journalists, managers, translators and the like. When one woman is languishing for a few weeks and another teaching singing and another instructing a class in gymnastics, the new women's hotel will be as lively as a circus. The greatest hardships in the Stewart hotel was the prohibition of pianos, but perhaps a building full of pianos will be even worse than one without any.

How much easier to do things for men! "Hotel No. 1, for instance, is a magnificent success. A man may live there in perfect comfort for less than one dollar a day. A good meal can be bought for ten cents upward. The hotel is perfectly clean. No one need feel that in the night he is receiving charity; for, though the main motive of Mr. Mills in founding it was undoubtedly a desire to do poor men a service, the hotel pays a fair profit.

If the women's hotel does as well financially, it will not be solving a problem of poverty. It will not do those—the very poor—who can't stand.

Bill Blue and Engine Two.
William Blue was an engineer in the employ of the Alton Railway company. One of his duties was to haul the through freight over the western division, and his pet was No. 2. One night he had an accident. One of the flues in the boiler of his engine blew out and he was stalled, blocking the main line. He reported the matter to the division superintendent unwittingly as follows:

"Engine two blew out a flue; what'll I do?"—Bill Blue.

Then he sat down to wait instructions. This is what came over the wires from the superintendent's office, 20 minutes later:

"—Bill Blue: You plug the flue in engine two and pull her through in time to get out of the way of 22."

This order is stuck up in the cab of engine 2.—Slater Index.

MONSTER METEOR.

Fiery Body Seen in Hopkinsville Monday Night.

About 12 o'clock Monday night a meteor of unusual size and brilliancy passed over the city, lighting the streets and buildings for several seconds, almost with the brightness of day. This was succeeded by a loud crash similar to an earthquake shock. When the meteor passed over it was traveling a little west of north, leaving a brilliant trail of blue light and sparks in its path. In about a minute a distinct explosion was heard. This was followed immediately by a rumbling noise and a shaking, as if of an earthquake. The shock was not violent enough to cause any damage, but it was distinct and made windows and doors rattle.

Twenty minutes before the meteor was seen snow was falling and the wind blew a sharp gale. In a very short while the clouds disappeared and the stars shone brightly. The meteor was seen at Dalton, Ga., and at Chattanooga, Tenn., but no reports were heard.

ZERO WEATHER.

A Drop Of Eighty Degrees Follows Summer Temperature.

The two or three days of balmy weather last week caused many to think that spring was preparing to make its advent, the mercury going up as high as 78 degrees one day. This was followed by stormy conditions for three days and by Tuesday nothing zero weather was with us again, in fact some thermometers in the city registered two below. It was bitter cold all day Tuesday and skating on ponds was indulged in by many.

According to Hicks we are yet to have some very stormy weather during the month, followed by cold waves, but it is not likely that the mercury will drop to the zero mark.

MARCH, APRIL, MAY.

These Are The Months In Which to Purify Your Blood.

This is the season when your blood is loaded with impurities, accumulated during the winter months from close confinement, rich food, and other causes. These impurities must be driven from your system or they may breed serious disease and cause untold suffering. Hood's Sarsaparilla is the greatest and best blood purifying medicine it is possible to obtain. It will purify and enrich your blood, create an appetite, tone up your system, and give you sound, robust health.

BE CURED OF GRIP!

The Wonderful Results Obtained in the Case of Supt. Davison.

Now, what is the grip? Can it be avoided or prevented? And can it be cured?

Grip is characterized by a continued fever, by a tendency to inflammation of the membranes of the digestive and often the respiratory tracts, by pain in the muscles, and by debility.

The grip in individual cases varies from a slight indisposition to severe forms with grave symptoms—these variations depending wholly upon the health, age, temperament or nervous condition of the person. Those predisposed to rheumatism suffer great pain in the muscles; persons of nervous temperament become low spirited, often have hysteria, and, if not closely watched, have been known to commit suicide. Several cases of this sort have been reported this month in the newspapers. Headache is a constant symptom. The bowels are generally constipated. Whatever form the disease takes there is invariably extreme prostration. The danger to persons in previous healthful condition is slight.

It has been absolutely proven that there is one certain preventive of serious cases of grip; and that there is one remedy for persons suffering with it, or beginning to be convalescent from its attack.

The unexplained public demand for Paine's celery compound during the last two months—and the pro-

prietors of this remedy have never known so great a call for it—has been due to its use by thousands of people for whom it has been prescribed by intelligent physicians, to restore the patient's vitality, to purify the blood of the enervating poison, to restore the nervous system to healthy action and to strengthen the vital organs.

A person will continue to suffer from the evil effects of grip for many months unless he attacks the disease by getting rid of the unnatural, unhealthy poison in the system, supplying the body with new blood, arousing the healthful action of the kidneys, liver and digestive organs, and nourishing and rebuilding the over-exerted and debilitated nervous system. All this and just this Paine's celery compound will do. In the multitude of cases where it has been used, it has never failed.

A case well known in Chicago is cited. Mr. Frank E. Davidson, who is one of the most brilliant and best known engineers in the world, had just finished the plans for the great intercepting sewer system of Chicago, which is to divert the entire sewerage of the city from Lake Michigan, through the famous Chicago drainage canal, and down the Mississippi. Superintendent Davidson had worked for months on this scheme. He was well and happy, and took his bed with an attack of the grip. After a while

the disease not having left him, he was advised to try Paine's celery compound. He was soon back at his office in the department of public work, a well man, and forthwith wrote a letter to the proprietors of the remedy, in which he says:

"I had been told by my friends of the wonderful results obtained by them from the use of Paine's celery compound. After my severe attack of the grip I determined to try it. I have already found that my friends' reports were not at all exaggerated, and I wish to join most cheerfully with them in recommending the remedy to others."

Hundreds of grateful letters have been written to the proprietors of Paine's celery compound since the appearance of grip this year, telling of the perfect recoveries it has effected. The letters come from men and women of many conditions. Few persons are so poor they cannot afford to have this great remedy constantly in the house, and none are so prosperous that for their health's sake they can afford to be without it. When so many men and women whose words carry the utmost weight in the communities in which they live testify as they do to the great benefit they have received from Paine's celery compound, there can be no hesitancy in trying it. A single trial is the test which is confidently invited.

TOBACCO BARN BURNED.

An Incendiary Gets in His Work Near Fairview.

A rehaling tobacco barn belonging to Mr. William R. Wood, situated three miles north of Fairview, was destroyed by fire Sunday night, together with about thirty thousand pounds of fine tobacco and a lot of farming implements. The loss foots up about \$3,000. There was \$1,000 insurance, carried with Higgins & Son, of this city, which was promptly adjusted Monday. It was evidently the work of an incendiary, as there had been no fire in the building since the day before.
